(Mining Column)

TIN MINING ON DARTMOOR. - Operations have again commenced at the celebrated Old White Works Tin Mine, near Prince Town, and there is every prospect good returns being shortly made by the spirited proprietors. The machinery for stamping and round buddles for dressing the tin are all of the newest and most improved description. The re-working of this mine has long been looked for by many of the Dartmoor tin miners, to whom it will prove a great boon. There is a large quantity of tinstuff already at surface, which will soon be in the market. The mine has been started by a London company. Mr. H. Barton is the managing director, as well as a very large shareholder.

TIN MINING ON DARTMOOR

SIR, - I am glad to find that operations have again commenced at the celebrated Old White Works Tin Mine, near Prince Town, and that there is every prospect of good returns being shortly made by the spirited proprietors. The machinery for stamping and round buddles for dressing the tin are all of the newest and most improved description. The re-working of this mine has been long looked forward to by many of the Dartmoor tin miners, to whom it will prove a great boon. There is a large quantity of tin at surface which will soon be in the market. The mine has been started by a London Company, Henry Barton, Esq., is the managing director as well as a very large shareholder, whom we wish every success.
